

Q: Relative to Sample Task 4 regarding nonroad it says “the Contractor will run the Nonroad model for the COVERED STATES. The set up and inputs shall be those used in USEPA 2011 NEI V1.” Can you confirm that the task should only be for nonroad sources covered in the Nonroad model and does not include CMV, trains, airplanes?

A: Yes, only nonroad sources covered in nonroad model will be estimated in this task.

Q: If the electronic copy of the proposal reaches MARAMA by April 30, is that sufficient to count as a submitted proposal as long as the written proposals are postmarked/shipped by that date or do all copies (hard and electronic) have to arrive by the submittal deadline?

A: Yes, if an electronic copy by the deadline will be fine with a hard copy postmarked on the same day.
