Mercury Continuous Emissions Monitoring Systems (Hg CEMS) Webinar

July 26, 2011
10:00 am – 11:30 am

Webinar Purpose:

Two of the leading manufacturers of Hg CEMS will:

1. discuss their experience deploying the technology for a variety of applications, such coal fired power plants, the Cement and incinerator industries;
2. share performance, operation and maintenance experiences as well as;
3. offer a perspective on low level mercury measurement in the context of EPA's proposed mercury and air toxic standards for power plants;
4. address any specific issues States are dealing with implementing State mercury rules or in preparation of the National requirements.

10:00 am	Introductions and Overview
10:10 am	Mercury CEMS Overview
10:20 am	Karl Wilber, Tekran Instruments Corp.
