NATTS Update

MARAMA Monitoring Committee Workshop - December 2016

David Shelow & Lewis Weinstock
Office of Air Quality Planning and Standards

NATTS Update

New NATTS Technical Assistance Document (TAD)

- ✓ Revision 3 is finalized and was distributed on October 25, 2016
- ✓ Added SLT members to workgroup after 2015 release
- ✓ Provides **clear** and **updated** technical direction for monitoring and analysis of NATTS pollutants.
- ✓ Provides a **consistent approach** on **MDL calculation** for the NATTS program.
- ✓ Can be used as a **model** or for reference for labs performing **air toxics** studies (art glass, Superfund, emergency response).
- ✓ Allowing **one year for implementation** of the new TAD.
- ✓ **Adherence to the TAD** will be referenced in the **NATTS workplan template** and is a **grant condition** for labs and sites in the NATTS program.

NATTS Update

- ✓ **Webinars for TAD are being scheduled:**
  - Dec. 12th MDL webinar
  - Jan 2017, QA/QC
  - Each compound class to follow (VOCs, Carbonyls, Metals, PAH)
  - Lastly will be data reporting

- ✓ **NATTS Assessment is completed;**
  - will schedule calls with each NATTS site in 2017

- ✓ **TSA final reports should be sent out by end of this year.**

- ✓ **CSATAM – RFP is in progress.**
